1. Key safeguarding terminology and definitions

Child

This is defined in the children's act 1989 (amendment, 2004) as anyone under the age of 18.

Working Together 2018, state that safeguarding children is defined as, protecting children from maltreatment, protecting children from harm, abuse and neglect, preventing impairment of children's health or development, and ensuring that children have access to the care and support they need.

Adult

Is anyone aged 18 or over

Adult at risk

Is a person aged 18 or over who;

- Has needs for care and support (whether or not the local authority is meeting any of those needs)
- Is experiencing, or is at risk of, abuse or neglect
- As a result of those care and support needs is unable to protect themselves from either the risk of, or the experience of, abuse or neglect

Adult in need of care and support

This is determined by a range of factors including personal characteristics, factors associated with their situation or environment and social factors.

Naturally, a person's disability or frailty does not mean that they will inevitably experience harm or abuse.

In context of safeguarding adults, the likelihood of an adult in need of care and support experiencing harm or abuse should be determined by considering a range of one or more of the above descriptors.

In recent years there has been a marked shift away from using the term 'vulnerable' to describe adults potentially at risk from harm or abuse.

Parent

The education Act 1996 defines a "parent" as: The natural (biological) parents of the child, whether they are married or not; Any person who although not a natural parent has parental responsibility for the child; Any person who although not a natural parent, has care of the child.

Abuse

Is a violation of an individual's human and civil rights by another person or persons.

Adult safeguarding

Is when we are protecting a person's right to live in safety, free from abuse and neglect.

Capacity

This refers to an individual's ability to decide at a particular time, for example when they're under considerable stress. The starting assumptions must always be that a person has the capacity to make decision unless it can be established that they lack capacity (Mental Health Capacity Act 2005)

Harm; ill-treatment or the impairment of health or development, including for example, impairment suffered from seeing or hearing the ill- treatment of another (Children Act 1989). Harm will often be related to abuse of which there are several recognised forms many relating to both children and vulnerable adults: emotional (including bullying), discriminatory, financial, physical, neglect and sexual. Financial abuse is something more

PETERBOROUGH UNITED FOOTBALL CLUB

www.theposh.com

usually related to vulnerable adults but where future professional footballers are concerned this is a significant area of risk.

The Club

This is when the policy is referring to Peterborough United Football Club (PUFC), its staff and all activities it undertakes. In certain circumstances, it may also refer to third parties with an entrusted responsibility for delivering Club supported activities.

Weston Homes Stadium; This is the primary venue for the Football Club: Weston Homes Stadium, London Road, Peterborough, Cambridgeshire, PE2 8AL

Training Ground; This is the main venue for all Academy training, games and education and first team training. (ITG) idverde Training Ground, Oundle Road, Peterborough, Cambridgeshire, PE2 7EA

Staff

The word staff is referring to any persons employed and receiving payment for services from the Club. This is irrespective of the length or nature of their contract.

Senior Safeguarding Manager – **SSM**

Head of Club Safeguarding – **HOS**

Designated Safeguarding Officers – **DSO**

Volunteers

The word volunteer is referring to a person who freely offers their time to take part in a task, event or enterprise with the Club and their own expense, in terms of time and or resources.

Accommodation Provider

This means distant relative, unrelated, independent families or individuals contracted or employed (paid or volunteer) by the Football Club for the purpose of providing accommodation and care for Academy players/trialists who need to live away from home.

Positions of Trust

As a result of the roles and authority that any members of the Football Club's staffing team hold, they are considered to be in a position of trust in relation to those in their care. Thus, carrying authority, status, power and responsibility.

If the staff involved are positive role models, displaying high moral and ethical standards the impact on adult at risks development can be significant. Thus, meaning that staff in a position of trust must not abuse their power for personal advantage or gratification or that of others. Any such abuse will be regarded as gross misconduct. All reports of abusing a position of trust must be reported through to any member of the safeguarding team or Match Day Key Staff.

Safeguarding

Preventative and reactional measures taken by the Football Club to ensure the risk of harm or mistreatment to the welfare of vulnerable groups is minimised. The health or wellbeing of children is not impaired when engaging in Club activities and creating and maintaining an environment that allows children to be cared for safely, allowing for the best possible outcomes for them and provides them with the best life chances possible.

Welfare

The health, happiness and fortunes of an individual and the welfare aspects of their life, including personal need and physical and mental development.

It may involve causing people to feel frightened or in danger by being constantly shouted at, threatened or taunted which may make the person very nervous and withdrawn. Some level of emotional abuse is involved in all types of ill-treatment of a child, young person or vulnerable adult.

Emotional abuse in sport or physical activity may occur if people are subjected to constant criticism, name-calling, sarcasm, bullying, racism or pressure to perform to unrealistically high expectations; or when their value or worth is dependent on sporting success or achievement.

Additional Welfare Considerations

Poor practice is the type of behaviour of an individual in a position of responsibility which falls below the Clubs required standard. Poor practice may not be immediately dangerous or intentionally harmful to an individual, however is likely to set a poor example.

Poor practice is potentially damaging to the individual, the Club and to those who experience it. For example, leading a group with alcohol on the breath, smoking, swearing in front of others, or not paying due care and attention to participants all constitute poor practice.

Poor practice can sometimes lead to, or create, an environment conducive to more serious abuse. It may also lead to suspicions about the individual's motivation, even where no harm is intended. For example, if a member of staff is giving one child too much attention, regularly transports children in their car, or encourages physical contact with children without obvious justification.

Online Guidance

The below has been put together to offer guidance around online issues but is not exhaustive and there are other dangers online that young people can be exposed to. If you have any concerns whatsoever, please do not delay bring these concerns to the attention the Head of Club Safeguarding.

Adjust Controls

Adjust the parental controls on your broadband and internet enabled devices, depending on your young person's (player) age. Your broadband provider can tell you how. Find out how to set up safe search in Google by going to the Google Safety Centre. Remember that at this age, given that these players are in fact young men, that it is important that this needs to be done alongside dialogue and discussion.

Privacy Matters

Make sure they set high privacy settings on social networks. Encourage them to regularly change their passwords and never to share or put online any of their personal details, such as their phone number, address or their Academy details

Keep Talking

Be interested in what they're (player) doing online and discuss what they (player) might have come across. Don't be afraid to tackle difficult subjects like cyberbullying, and sexting and pornography. Help them to be critical of things they see online and judge the quality and reliability of online sources. Acknowledge that this is difficult considering how content can be manipulated online to persuade even the savviest people. Talk together about how to manage some of these challenges.

Tips for a meaningful conversation

- Make sure your young person (player) knows they can come to you if they're concerned by something they've seen online and make sure that you listen and don't overreact - the important thing is that they have come to you for help and support.
- Tell them you trust them to do the right thing rather than over monitoring their internet use.
- If your young person (player) comes to you with an issue, stay calm and listen without judging them. - Tackle peer pressure by explaining that if they're talked into bullying someone online or sending inappropriate images it may get reported to their Academy or even the police.
- Talk to them about how much time they spend online and make sure this is balanced against other activities.
- Discuss how they can report any harmful or inappropriate content or behaviour that they encounter online - empower them to take control themselves.

Online Reputation

Remind your young person (player) that anything they upload; email or message could stay online forever. Reinforce to them that they should only post things online that they wouldn't mind their parents, you, their coaches or a future employer seeing. There are lots of stories in the media that highlight the importance of online reputation and clearly demonstrate how things that happened years ago, can resurface in the future. Abuse of footballers, and in particular racist abuse, has provided an unwelcome theme throughout this season. Barely a week - often a day - goes by at the moment without a story about a footballer being racially abused on social media.

Incidents of racist abuse in English football are rising. Data shows one in 10 football matches in the 2019-20 season had an incident of hate crime in England and Wales, and the number of arrests for racist or indecent chanting more than doubled from 2018-19 to 2019-20 - from 14 to 35 - even though hundreds of matches during the second half of the season were cancelled or played behind closed doors due to the pandemic. During just the final six weeks of last season, a joint PFA and Signify study of online content identified more than 3,000 abusive messages aimed at Premier League players, 56% of which were racist. Of the players surveyed, 43% said they had experienced targeted racist abuse. Where they can get evidence, the police will act, however, it is not uncommon for social media companies to be reluctant or slow to provide the police with details that can assist their enquiries. If your young person (player) discloses that they have been a victim of racist abuse, then please report this to Head of Club Safeguarding.

Sexting

Sexting is when people share a sexual message and/or a naked or semi-naked image, video or text message with another person. It's also known as nude image sharing. Young people (player) may consent to sending a nude image of themselves however, they can also be forced or coerced into sharing images by their peers or adults online.

If a young person (player) originally shares the image consensually, they have no control over how other people might use it.

If the image is shared around peer groups, it may lead to bullying and isolation. Perpetrators of abuse may circulate a nude image more widely and use this to blackmail a young person and/or groom them for further sexual abuse.

It's a criminal offence to create or share explicit images of a child, even if the person doing it is under 18 years of age. If sexting is reported to the police, they will make a record but may decide not to take any formal action against a young person (player).

Should be become aware that the young person in your care has been involved in 'sexting', please speak to your Club Designated Safeguarding Officer for advice.

Online grooming – Extremism and Radicalisation

Young people (player) can be exposed to different views and receive information from various sources. Some of these views may be considered radical or extreme.

Radicalisation is the process through which a person comes to support or be involved in extremist ideologies. It can result in a person becoming drawn into terrorism and is in itself a form of harm. Extremism is vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs. It includes calls for the death of members of the British armed forces (HM Government, 2011).

Challenging and tackling extremism needs to be a shared effort (HM Government, 2013). For this reason, the Government has given some types of organisations in England, Scotland and Wales a duty to identify vulnerable children and young people and prevent them from being drawn into terrorism. However, all organisations that work with children and young people have a responsibility to protect children from harm, including Football Clubs. This includes becoming radicalised and/or being exposed to extreme views.

How does radicalisation happen?

The process of radicalisation may involve: · being groomed online or in person· exploitation, including sexual exploitation.

- psychological manipulation
- exposure to violent material and other inappropriate information ·
- the risk of physical harm or death through extremist acts.

It happens gradually so children and young people who are affected may not realise what it is that they are being drawn into.

Vulnerability factors

Anyone can be radicalised but there are some factors which may make a young person more vulnerable. These include: ·

- being easily influenced or impressionable
- having low self-esteem or being isolated
- feeling that rejection, discrimination or injustice is taking place in society
- experiencing community tension amongst different groups
- being disrespectful or angry towards family and peers
- having a strong need for acceptance or belonging
- experiencing grief such as loss of a loved one.

These factors will not always lead to radicalisation.

Indicators of radicalisation

If a young person is being radicalised their day-to-day behaviour may become increasingly centred around an extremist ideology, group or cause. For example, they may:

- spend increasing amounts of time talking to people with extreme views (this includes online and offline communication)
- change their style of dress or personal appearance · lose interest in friends and activities that are not associated with the extremist ideology, group or cause
- have material or symbols associated with an extreme cause
- try to recruit others to join the cause

(Home Office, 2015).

PETERBOROUGH UNITED FOOTBALL CLUB

www.theposh.com

What to do if you think a young person is being radicalised If you think a child or the people around them are involved in radicalisation and there is an immediate risk of harm, call 999 straight away.

If it isn't an emergency, follow your organisation's procedures. This might include:

- contacting your Designated Safeguarding Officer at the Club
- calling the police antiterrorism hotline on 0800 789 321

You can report concerns about extremism in schools and organisations that work with children, or where you think a child is at risk of extremism via 020 7340 7264 or counter.extremism@education.gov.uk

Positive messages

You can build young people's resilience to radicalisation and extremism by:

- helping improve their self-esteem and self-confidence
- promoting inclusivity and community cohesion
- providing a safe environment for debating a range of issues such as British values, recognising and managing risk, making safer choices and the impact of pressure from others
- helping young people (player) understand how they can influence and participate in decision making.

Grooming

Grooming is "a process by which a person prepares a child, significant adults and the environment for the abuse of the child or young person" (Craven, 2006). Grooming can happen anywhere, including:

- online
- in organisations
- in public spaces (also known as street grooming)

Young people (player) can be groomed by a stranger or by someone they know – such as a family member, friend or professional. The age gap between a child and their groomer can be relatively small (NSPCC and O2, 2016). Grooming techniques can be used to prepare children for sexual abuse and exploitation, radicalisation

Signs a child or young person is being groomed include:

- sudden changes in behaviour · going missing from home or work
- secretive use of technology
- having unexplained gifts
- alcohol and/or drug misuse
- having a much older 'boyfriend' or 'girlfriend'
- developing sexual health problems
- mental health problems

Groomers gain trust by:

- pretending to be someone they're not, for example saying they are the same age as the young person online
- offering advice or understanding
- buying gifts
- giving the young person (player) attention
- using their professional position or reputation
- taking the young person (player) on trips, outings or holidays

PETERBOROUGH UNITED FOOTBALL CLUB

www.theposh.com

Gaining power

Once they've established trust groomers will exploit the relationship by isolating the young person from friends or family. Groomers will use power and control to make a young person (player) believe they have no choice but to do what the groomer wants.

Secrets

Groomers may introduce 'secrets' as a way to control or frighten the young person. Sometimes they will blackmail the them or make them feel ashamed or guilty to stop them telling anyone about the abuse.

Manipulation

Groomers use a range of strategies to entrap a young person and manipulate the them into participating in both online and offline sexual activity. They present themselves as approachable, likeable and having shared interests with the young person that they are targeting.

Groomers will test a young person's compliance by persuading them to carry out inappropriate or abusive activities.

Online grooming

Groomers can use social media, instant messaging apps (including teen dating apps) or online gaming platforms to connect with a young person. They can spend time learning about a young person's interests from their online profiles and then use this knowledge to help them build up a relationship.

It's easy for groomers to hide their identity online – they may pretend to be another young person of similar age and then chat and become 'friends' with person they are targeting.

Groomers may look for:

- usernames or comments that are flirtatious or have a sexual meaning ·
- public comments that suggest a young person has low self-esteem or is vulnerable.
- Groomers don't always target a particular young person: sometimes they'll send messages to hundreds of young people and wait to see who responds. Groomers don't need to meet children in real life to abuse them. Increasingly groomers are sexually exploiting young people by persuading them to take part in online sexual activity.

Groomers gain trust by:

- pretending to be someone they're not, for example saying they are the same age as the young person online
- offering advice or understanding
- buying gifts
- giving the young person attention
- using their professional position or reputation

How to prevent grooming

To prevent grooming, it's important for there to be community awareness about what grooming is, how it works and how it can lead to abuse. Communities can be the strongest allies in protecting young people from exploitation.

It's also essential for those who work with young people to empower them to recognise and speak out about abuse. This includes:

- teaching young people about healthy relationships
- helping young people develop the awareness and skills needed to keep safe online.

Child Sexual Exploitation (CSE) CSE is a type of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity. Children and young people in sexually exploitative situations and relationships are persuaded or forced to perform sexual activities or have sexual activities performed on them in return for

PETERBOROUGH UNITED FOOTBALL CLUB

www.theposh.com

gifts, drugs, money or affection. CSE can take place in person, online, or using a combination of both. Perpetrators of CSE use a power imbalance to exploit children and young people. This may arise from a range of factors including:

- age
- gender
- sexual identity
- cognitive ability
- physical strength
- status
- access to economic or other resources (Department of Education, 2017).

Sexual exploitation is a hidden crime. Young people (players) have often been groomed into trusting their abuser and may not understand that they're being abused. They may depend on their abuser and be too scared to tell anyone what's happening because they don't want to get them in trouble or risk losing them. They may be tricked into believing they're in a loving, consensual relationship.

Child sexual exploitation online

When sexual exploitation happens online, young people may be persuaded or forced to:

- have sexual conversations by text or online
- send or post sexually explicit images of themselves
- take part in sexual activities via a webcam or smartphone

Abusers may threaten to send images, video or copies of conversations to the young person's friends and family unless they take part in further sexual activity. Images or videos may continue to be shared long after the sexual abuse has stopped.

Impact of child sexual exploitation

Child sexual exploitation (CSE) can have long-term effects on young people's wellbeing, impacting on their life into adulthood.

Some difficulties faced by young people who have been sexually exploited include:

- isolation from family and friends
- falling behind on schoolwork, failing exams or dropping out of school altogether
- teenage parenthood
- unemployment
- mental health problems
- alcohol and drug addiction
- having a criminal record
- suicidal thoughts and attempts
- Impact of online child sexual exploitation

Research suggests that online child sexual abuse can have as much of an impact on a child as abuse that only takes place offline and can lead to the same psychological difficulties (Hamilton-Giachritsis et al, 2017). Effects can include:

- self-blame
- flashbacks or intrusive thoughts
- difficulties sleeping
- nightmares

PETERBOROUGH UNITED FOOTBALL CLUB

www.theposh.com

- Extreme
- tiredness
- difficulties concentrating
- difficulties keeping up with school work
- behavioural problems at school
- depression
- low self-esteem
- social withdrawal
- panic attacks and anxiety
- eating disorder or eating difficulties
- self-harm

Recognising child sexual exploitation

Child sexual exploitation (CSE) can be very difficult to identify. Warning signs can easily be mistaken for 'normal' teenage behaviour.

Child sexual exploitation (CSE) can be very difficult to identify. Warning signs can easily be mistaken for 'normal' teenage behaviour.

The abuse can be a one-off occurrence or a series of incidents over time and range from opportunistic to complex organised abuse.

Identifying perpetrators is difficult because:

- data isn't always recorded or is inconsistent or incomplete
- young people may only know their abuser by an alias, nickname or appearance
- victims may be 'passed between' abusers and assaulted by multiple perpetrators
- young people are often moved from location to location and abused in each place
- young people may be given alcohol or drugs, so may not remember details clearly

People who sexually exploit children are often described as highly manipulative individuals. They exert power over young people through physical violence, emotional blackmail or financial pressure, for example holding them in debt.

Perpetrators may use one victim to gain access to others, persuading or forcing a child or young person to bring their friends along to pre-arranged meetings or 'parties'. In some cases, if a young person tries to break free, the perpetrator will use their peers to draw them back in

If you think a young person is in immediate danger, contact the police on 999. If you're worried about a young person but they are not in immediate danger, you should share your concerns.

- With the Club Designated Safeguarding Officer (DSO) - Contact the NSPCC Helpline on 0808 800 5000
- Contact your local child protection services, however, it is advisable to first have a conversation with the Club DSO

Young People and Gambling

Although most gambling is illegal for under 18s, the latest full Young People and Gambling Survey shows that approximately 350,000 (11%) of 11-16-year olds spent their own money gambling in the previous week – that's more than those who smoked (6%) or took drugs (5%). More boys than girls gamble, and as many as 55,000 young people nationally can be classified as 'problem' gamblers using a recognised screening tool.

When asked, over half said they gamble for fun, while a third do it with the intention of winning money, and another third because 'it gives me something to do'. Others gamble to 'get a buzz' or because they like to take risks. One in 10 point to their parents' or guardians' gambling behaviour as a reason why they do it, while some young people say they gamble to boost their mood when they feel anxious or down.

Helping your young person (player) to understand the risks and consequences of gambling, in an open and non-judgemental way, is often more beneficial than a prescriptive 'don't do it' approach. It's also important to understand how your own attitudes to gambling can affect young people, and to realise the negative impact of problem gambling.

Risk Factors

Risk factors for problem gambling include a history of gambling in the family; an early big win; low self-esteem, boredom or depression; and peer pressure. If you're worried that your young person is gambling and that it could be getting out of control, these are some signs to look out for:

- Becoming moody or restless, acting secretive, lying
- Missing work, loss of interest in extracurricular activities and hobbies
- Increased interest in money and possessions; having more (or less) cash than usual
- More competitive than they used to be, keen to 'be right' about things
- Social Gaming, eSports and Skins Betting

The key difference between social gaming and gambling is that with social gaming you cannot win a prize that is classified as money or 'money's worth'. If you can win points or 'virtual currency' (with no real world value) on a game involving social interaction, that is classified as social gaming

Skins are mostly cosmetic items players can purchase in a variety of games for players to customise their characters. Players can buy, sell and exchange these items. When these items are used as virtual currency to bet on the outcome of professional matches or other games of chance, that is defined as skins betting.

Some players may spend a lot of time on a social game. This is especially common on games that have an immersive world, or customisable characters. The physical implications (inactivity, repetitive strain injury, sleep deprivation) go hand in hand with social implications, such as social isolation, or lack of self-care. In-app or in-game purchasing can be a very easy way to run up a significant bill. With one tap, players can buy bonuses, level ups, hints etc., and quickly lose control of spending limits.

eSports is a form of competition that takes place electronically, most often in the form of video games. Some eSports professionals make money from gaming competitively online and in packed out arenas. eSports is a popular spectator sport, with an estimated global audience of up to 150 million people. As such it has become an attractive betting proposition. Popular eSports Games include Defense of the Ancients (DOTA), League of Legends (LOL), Counter Strike Global Offensive (CS: GO) and Overwatch.

eSports and betting have become more closely linked in recent times; however, eSports is popular with a young demographic and many fans are under the legal age to gamble. Though proportionally there is little gambling on e-sports taking place in the mainstream market, there are more opportunities to place bets in unregulated markets. This is a of particular concern in relation to young people. eSports matches are also streamed for free on the web, via sites like twitch.tv, which can also include promotion for different forms of gambling. The

Gambling Commission has started to consider this as an issue of concern, along with skins betting.

If you have any concerns in respect of gambling or online gaming in respect of your young person, please discuss this with your Club DSO and reach out to the help available at bigdeal.org.uk

Care and Accommodation Planning

In order for the Football Club to provide the best support to player while in Club provided accommodation, Safeguarding, Care and accommodation planning requires a Club-wide, strategic, commitment and accountability.

Players requiring care and accommodation need to be placed with providers that recognise their talents and strengths of an athlete as well as their potential vulnerabilities as children and young people living away from their family homes at what is an important period in their development.

Parental responsibility holders and parents are expected to play a vital role in the care and accommodation planning at the start of the season to help the Club best place the player. In order to do this the Club will arrange home visits to gather and gain information and background knowledge of each player going into Club provided accommodation. Parental responsibility holders and parents will be given relevant information about decisions and accommodation placements.

Academy Players will play a vital role in care and accommodation planning with their wishes and feelings being sought routinely.

The direct accommodation provider will have complete rigorous process to determine their suitability. Providers play a significant role in supporting the players and Club to achieve their respective goals and are therefore partners in the care and accommodation planning process.

Clubs play the central role in the care and accommodation process, Clubs do not acquire parental responsibility but as the party who decides whether to accept a child or young person into the Academy and who will determine the suitability of the Accommodation provider, they have considerable responsibility and duty of care to all.

The Club care and accommodation planning process is;

- Ensure that all parties are treated in an open and transparent way
- Provide clarity about the responsibilities of each party; and
- Makes it easy to see whether the care and accommodation provider supports the player.

Parental Responsibility and Delegated Authority

A person who has parental responsibility may not surrender or transfer their parental responsibilities. A person with delegated may only do what they are authorised to do, for instance, in an emergency they can and should do what is reasonable to keep the child safe. Arrangement's for delegating authority should be recorded in the Care and Accommodation plan, however the arrangement is not legally binding, and the parental responsible can remove the player from the care and accommodation setting.

Delegation of authority does not relive the parental responsibility from the parental holder of liability.

The Club will identify a range of situations in which the Club can authorise for Players to part take, these situations will be asked to the parental holder and if they wish to delegate authority to the Stipulated Club staff member (Safeguarding and Academy Manager). These will include;

- **Medical and Health;** registering the player with a local GP in Peterborough. Registering the player with a local dentist. Identifying a local Opticians. Decisions on any form of medical treatment from a GP or dentist will not be done without the further permission of the parental holder.
- **Social;** authority to grant social outings such as, team meals and activities arranged by the Football Club.

At the end of each season all accommodation providers will be offered the opportunity to notify the Football Club if they wish to continue providing accommodation to players. Once the information has been received all providers will be reviewed prior to the new season starting. This review will be for the Club to complete a full person and house review to understand and check the continued suitability to provider accommodation to Club players. The review will be undertaken by the Head of Club Safeguarding and Professional Development Lead Phase, this is so there is appropriate knowledge and experience in reviewing the providers.

Allegations against care and accommodation providers

An allegation is an assertion from any person where an accommodation provider has;

- Acted, or failed to act in a way that has caused significant harm to a player

Or

- Committed a criminal offense

Or

- Otherwise behaved in a way that indicated that they pose a risk of harm to a player.

An allegation differs from general complaint as an allegation must be investigated with the involvement of the local authority in whose area it is to have knowledge of accommodation residents.

The Football Club have comprehensive policies and procedure in place in which they would come into play in the event of an allegation against a provider.

When allegations are made the Football Club will consider;

- Police investigation of possible criminal offense
- Enquiries and assessment by children services to determine whether the player is a child in need of protection or in need of services.

Peterborough United remind all staff that they must remember that the welfare of the child/adult at risk is paramount and they must report any of their concerns immediately, following the correct channels stated in this policy.

All allegations against staff will be referred through to The FA safeguarding team and EFL safeguarding team and the designated officer at the local authority.

- **Malicious:** there is sufficient evidence to disprove the allegation and there has been a deliberate act to deceive
- **False:** there is sufficient evidence to disprove the allegation
- **Unsubstantiated:** there is insufficient evidence to either prove or disprove the allegation. The term, therefore, does not imply guilt or innocence.

Supporting those involved

The person(s) who makes the allegation and where the allegation reporter is a child their parents/carers.

Parents and carers will be notified if their child makes or is involved in an allegation against staff if they do not already know. However, if the police or social services are to be involved, they will be contacted first and will be advised as to what information may or may not be disclosed to the parents. *[There will be a staff member designated to the role of liaising with the parents and child about the case and ensuring that they are fully informed as far as is possible.]* Parents and carers will be made aware of any progress in the investigation, and where there is no criminal prosecution, the outcome will be explained to them.

There may be a disciplinary outcome. During a disciplinary hearing the deliberations and information used for deciding are usually confidential, however parents will be told the outcome in confidence.

Social services and the police may be involved and will provide the school with advice on what type of additional support the child may need.

The employee

Peterborough United has a duty of care to all its employees and therefore the Club will take steps to minimise the stress of any allegation. *[There will be a staff member designated to the role of liaising with the parents and child about the case and ensuring that they are fully informed as far as is possible.]*

The employee will then be advised on what the next course of action will be. However, if the police or social services are to be involved, they will be contacted before the employee, and will advise as to what information may be disclosed to the person under investigation.

The designated member of the safeguarding team will keep the employee informed of the progress of the case and any other work-related issues.

Confidentiality

Peterborough United will make every effort to guard the privacy of all the parties during and after an investigation into an allegation. It is in everyone's best interest to maintain this confidentiality to ensure a fair investigation with minimum impact for all parties involved.

Any breach of confidentiality will be taken seriously and may warrant its own investigation from the Football Club.

Suspensions

The Club policy is to suspend a member of staff who has had a safeguarding allegation made against them. This is for the protection of the staff member.

In the case of suspension, the employee will be asked to attend a meeting with the Head of Club Safeguarding and their line manager where they will receive written confirmation of the suspension, assigned a member of staff and informed of their expectations while on suspension.

Resignations

If an employee resigns when the allegation is made against them or during an investigation, the investigation will continue until an outcome has been reached, with or without the employee's cooperation.

Record keeping

Where an allegation is found to be malicious, all information of the allegation will be removed from the record of the employee concerned.

For all other allegations, records of investigations and outcomes will be kept in the employee's personal file and they will be given a copy. The record will be kept, including for people who leave the organisation, at least until the person reaches normal retirement age or for 10 years if that will be longer, from the date of the allegation.

Details of any allegation made by a child will be kept in the confidential section of their record on MyConcern.

All information related to safeguarding allegations against staff at Peterborough United Football Club is stored with HR.

Action on conclusion of the case

If the allegation is substantiated and the employee is dismissed or resigns, or we cease to use the volunteer's services, the Football Club will consider whether a referral must be made to the DBS as appropriate.

If it is decided that the employee may return to work after a suspension, then sufficient provisions will be put in place by the Football Club to ensure that the transition for the, returning to work is as smooth as possible.

This may involve a phased return for a trial period or the use of another member of staff as a support system in the short term. If the child/adult at risk who made the allegation is still at the club, the club will consider what needs to be done to manage the contact between employee and child/adult at risk.

Action in the case of false or malicious allegations

Where an allegation is proved to be false, the SSM may refer to social services to determine whether the child/adult at risk needs support or has been abused by someone else.

The club's safeguarding policy sets out the disciplinary action that may be taken against anyone found to have made malicious allegations against club staff. The SSM may consult the Club board when considering what action to take.

If the claim has been made by a person who is not a member of the Football Club, the Club may pass the information to the police who may take further action against that person.

After the case

No matter what the outcome is of an allegation of abuse against staff, the Club will review the case to see if there are any improvements that can be made in its practice or policy that may help to deal with cases in the future.

Anti-Bullying

This policy aims to ensure that all those connected to Peterborough United Football Club are protected from any form of bullying behaviour. Whilst we cannot guarantee there will be no bullying of any kind whatsoever, the ongoing and long-term aim of the policy is to reduce the number of people who may experience bullying through increasing awareness of this behaviour, its causes and consequences in the players, staff, parents and carers and visitors. It will also help people find and put into practice a series of solutions to the problem of bullying. This policy will ensure that individual cases of bullying will be dealt with consistently and in a constructive and fair manner when they occur.

Bullying is when one or more people physically, emotionally or psychologically hurt or cause harm to a person who is in a weaker position than them, and so is less able to defend themselves. Bullying usually happens over a period of time and consists of a series of different incidents. Bullying is a behaviour in which an individual(s) makes choices about how to act in order to damage others. Peterborough United Football Club

PETERBOROUGH UNITED FOOTBALL CLUB

will challenge such choices wherever they are encountered and sanctions, depending on the severity of the offence, will be enforced against those who bully. People are expected to act in principled and reflective ways. The causes of bullying are complex and those who bully often cite their own experiences of bullying when trying to explain their behaviour. Whilst staff will be sympathetic and supportive, it is not a justification for bullying others and will not exempt bullies from taking responsibility for their actions.

Types of bullying:

Physical:

- Hitting
- Kicking
- Spitting
- Tripping someone up
- Stealing/damaging someone's belongings.

Verbal:

- Name-calling
- Insulting a person's family
- Threats of physical violence
- Spreading rumours
- Constantly putting a person down.

Principles for handling bullying:

- All reports or witnessing of bullying will to be taken seriously. All reports or concerns will be logged onto MyConcern.
- Staff will work with the person to ensure that they feel safe
- Staff will work with the perpetrator to change the bullying behaviour
- Staff will work with all parties involved to support and encourage a solution to the bullying
- Asking a person to not attend a Peterborough United activity is a last resort. If particularly serious victimisation, abuse, intimidation or physical bullying against any other person belonging to the Football Club is reported and/or witnessed, those people who carried out the bullying will be dealt with in line with the Club's behaviour policy. This may include being asked not to attend any Football Club activity while the allegation is being investigated and solutions are sought. If the solutions have no effect, or if the bullying was so severe that it would be harmful to the rest of the Football Club to allow the person to return, they may have their contract terminated, receive a Stadium or Training Ground ban

Commitment from the Club:

- Use any opportunity to discuss aspects of bullying, and the appropriate way to behave towards each other.
- Deal quickly, firmly and fairly with any complaints, involving parents/carers where necessary.
- Review the Anti-Bullying Policy and its degree of success.

Procedure:

Recording of incidents:

- Report bullying to any Peterborough United staff who will raise a cause for concern through the online safeguarding portal MyConcern
- A DSO will be assigning to the concern and continual record will be store and updated all the process through MyConcern.

Example of disciplinary steps:

- Step 1 - the perpetrator will be warned officially to stop offending
- Step 2 - where necessary and appropriate the perpetrator parents/carers will be informed and a meeting arranged with a member of the safeguarding team
- Step 3 - if step two is not necessary a meeting will be arranged with a member of the safeguarding team, and were necessary, Academy Manager and or CEO
- Step 4 - the perpetrator will be asked not to attend a Peterborough United event for a fixed period (usually 1 week).
- Step 5 - implementation of the Football Disciplinary Process with the Board of Directors which may result in the termination of contract, Stadium or Training ground ban

NB: serious incidents will result in the police being informed and the Football Club will allow them to carry out an investigation against the perpetrator

Stage 1 – Frontline Resolution

This could mean an on-the-spot apology and explanation if something has clearly gone wrong and immediate action to resolve the problem at hand. Where possible you should raise the problem with the relevant staff member. This can be done face to face, by phone, in writing or by an email. Peterborough United will give you our decision at Stage 1 within five working days, unless there are exceptional circumstances. If you are not satisfied with the response we give at this stage, we will tell you what you can do next. If you choose to, you can take your complaint to Stage 2 of the complaint procedure. You may choose to do this immediately or shortly after you get our initial decision.

Stage 2 – Complaint Investigation

Stage 2 deals with two types of complaint: those that have not been resolved at Stage 1 and those that are complex and require detailed investigation. Although we will also accept complaints that are made in person or on the phone, we encourage you to follow this up in writing or by email in order to best assist the investigation process.

When using Stage 2 we will:

Acknowledge receipt of your complaint within three working days and tell you who is dealing with your complaint

- Discuss your complaint with you to understand why you remain dissatisfied and what outcome you are looking for
- Give you a full response to the complaint as soon as possible and within 20 working days

If our investigation will take longer than 20 working days, we will tell you. We will agree revised time limits with you and keep you updated on progress.

The outcome and decision of the Club will be final.

This Equality Policy will be reviewed and updated, if required, on an annual basis.

Legal rights

Discrimination has been legally defined through a series of legislative acts, including the Race Relations Act, the Sex Discrimination Act, the Disability Discrimination Act and the Equality Act 2006.

In April 2010, the Equality Act 2010 received Royal Assent. The Equality Act 2010 is a new law which harmonises where possible, and in some cases extends, protection from discrimination. It applies throughout the UK and came into force in October 2010.

Discrimination refers to unfavourable treatment on the basis of particular characteristics, which are known as the 'protected characteristics'. Under the Equality Act 2010, the protected characteristics are defined as age, disability, gender reassignment, marital or civil partnership status (employment only), pregnancy and maternity, race (which includes ethnic or national origin or nationality), religion or belief, sex (gender) and sexual orientation. These are the current descriptions under the legislation and Peterborough United Football Club may refer to these using different terminology.

Under the Equality Act 2010, individuals are protected from discrimination 'on grounds of' a protected characteristic*. This means that individuals will be protected if they have a characteristic, are assumed to have it, associate with someone who has it or with someone who is assumed to have it. Forms of discrimination and discriminatory behaviour include the following:

Direct discrimination

Direct discrimination can be described as less favourable treatment on the grounds of one of the protected characteristics.

Indirect discrimination

Indirect discrimination occurs when a provision, criterion or practice is applied to an individual or group that would put persons of a particular characteristic at a particular disadvantage compared with other persons.

Discrimination arising from disability

When a disabled person is treated unfavourably because of something connected with their disability and this unfavourable treatment cannot be justified, this is unlawful. This type of discrimination only relates to disability.

Harassment

Harassment is defined as unwanted conduct relating to a protected characteristic that has the purpose or effect of violating a person's dignity, or which creates an intimidating or hostile, degrading, humiliating or offensive environment for that person.

Victimisation

It is unlawful to treat a person less favourably because he or she has made allegations or brought proceedings under the anti-discrimination legislation, or because they have helped another person to do so. To do so would constitute victimisation.

PETERBOROUGH UNITED FOOTBALL CLUB

Bullying

Bullying is defined as a form of personal harassment involving the misuse of power, influence or position to persistently criticise, humiliate or undermine an individual.

If you have any concerns or issues about the above, please contact Peterborough United on **01733 563947** or info@theposh.com.

*The exception to this is pregnancy and maternity, which does not include protection by association or assumption – a woman is only protected from discrimination on grounds of her own pregnancy.

Email

The email policy is to provide a framework to ensure that there is continuity of procedures in the usage of internet and e-mail within the Club. The internet and email system have established themselves as an important communications facility within the Club and have provided us with contact with professional and academic sources throughout the world. Therefore, to ensure that we are able to utilise the system to its optimum we have devised a policy that provides maximum use of the facility whilst ensuring compliance with

PETERBOROUGH UNITED FOOTBALL CLUB

the legislation throughout. The use of the email system is encouraged as its appropriate use facilitates efficiency. Used correctly it is a facility that is of assistance to employees. Inappropriate use however causes many problems including distractions, time wasting and legal claims. The procedure sets out the Club 's position on the correct use of the email system.

Procedures - Authorised Use

- unauthorised or inappropriate use of the email system may result in disciplinary action which could include summary dismissal.
- the email system is available for communication and matters directly concerned with the legitimate business of the Club. Employees using the email system should give particular attention to the following points:

- email messages and copies should only be sent to those for whom they are particularly relevant

- if the email is confidential the user must ensure that the necessary steps are taken to protect confidentiality. The Club will be liable for infringing copyright or any defamatory information that is circulated either within the Club or to external users of the system;

and

- offers or contracts transmitted by email are as legally binding on the Club as those sent on paper
- The Club will not tolerate the use of the e-mail system for unofficial or inappropriate

purposes, including:

- any messages that could constitute bullying, harassment or other detriment;
- personal use (e.g. social invitations, personal messages, jokes, cartoons, chain letters or other private matters);
- on-line gambling;
- accessing or transmitting pornography;
- transmitting copyright information and/or any software available to the user; or
- posting confidential information about other employees, the Club or its clients or suppliers.

Internet

Where appropriate, duly authorised staff are encouraged to make use of the Internet as part of their official and professional activities. Attention must be paid to ensuring that published information has relevance to normal professional activities before material is released in the Club name. Where personal views are expressed a disclaimer stating that this is the case should be clearly added to all correspondence. The intellectual property right and copyright must not be compromised when publishing on the Internet. The availability and variety of information on the Internet has meant that it can be used to obtain material reasonably considered to be offensive. The use of the Internet to access and/or distribute any kind of offensive material, or material that is not work-related, leaves an individual liable to disciplinary action which could lead to dismissal.

Procedures - Acceptable/Unacceptable Use

Social Media

Staff

All Peterborough United staff including part time staff and volunteers are reminded that the relevant Codes of Conduct apply online and in text and email communications. Breaches of these codes may result in disciplinary action being taken.

Social Media, when used properly, is enjoyable and opens a lot of opportunities for the Football Club. Through following the Club's simple guidelines and procedures potential downsides and risks can be avoided. Social Media can be safely used as an effective means of communication and engagement. As well as being a fun way to relax and stay in touch with friends. It is also of the utmost importance to keep personal and business matters separate.

Peterborough United advice that staff adjust their privacy settings for your personal accounts so that their personal content is only visible to accepted 'friends'. All social media posts should follow with Club values and every effort should be made to reduce occasions when they may be misinterpreted by the public. This will reduce the risk of you attracting complaints which may result in unnecessary investigation. All employees and volunteers at the Football Club are viewed as role models and they should behave so accordingly.

All staff are to ensure that any social media post you make could not cause personal distress or be viewed as inappropriate for children.

All staff should always have specific consent before posting any personal information online – this includes photographs where an individual can be identified. Parental/ Guardian consent is provided for official Club use and not for the use of individuals. Whilst we wish to celebrate success as a Club please ensure that your posts, pictures and information is compliant with this policy.

Children and adults at risk may consider you as a friend and on occasions you may receive 'friend requests' through social media platforms. It is imperative that you do not accept such requests nor message through social media tools or apps with an explanation why you are unable to. This breaches the Club Safeguarding Code of Conduct and may put your position within the Club in risk.

What may be well intentioned friendly contact this may not be considered the case by parents, staff at the Club or the Local Authority who determine whether people are safe to work with children.

Messaging children or adults at risk via texts, apps and emails:

It is inappropriate and often unnecessary for staff, and those in a position of trust, to communicate with children on a one-to-one basis via:

- text message
- WhatsApp
- email
- instant messaging or through social networking sites

All communications with Under 16's must be done directly through parents.

The Club understands that there may be occasions where direct contact may be needed between Club staff and the 16–18-year-old Academy group. In these situations, staff should ensure that consent from parents is in place.

This will help aid the protection of staff from allegations of inappropriate contact and grooming activity.

Any messages sent directly to children outside of these guidelines will be viewed by the Club with suspicion and may result in a disciplinary investigation.

This guidance also applies to emails which should always be sent from work.

All contact must relate to Club activity and your own personal details should never be discussed. Discussions with children or adults at risk about your own personal relationships or any personal difficulty will never be accepted by the Club as acceptable.

Every contact with children or adults at risk should be transparent and accountable.

If you suspect that someone is using social media or messages in an unsafe or inappropriate manner, you must report this to your Line Manager or a member of the Safeguarding team in line with the Club policies. This will be considered as a confidential concern and treated by staff as a neutral act.

Children

The internet is a great place to learn and to have fun and stay connected to your friends. The best way to have fun is to make sure that you stay safe.

When you use the internet, social media and apps you should think about the below to keep yourself safe:

- If someone is not your friend in real life, they are not your friend on the internet.
Be careful when accepting friend requests.
- Sometimes people on the internet are not who they say they are
If you are not 100% sure, do not risk it. Talk to an adult if you are worried
- Remember to change your privacy settings so that only your friends can see information about you, your social media posts, and especially your photos.
- If someone is sending you messages or texts that you are uneasy about make sure you tell your parents, or an adult you trust.
- Remember that Peterborough United Football Club staff are professionals, just like your teachers. They should not be your friend on social media and should not be texting or messaging you directly.
- You can expect Club staff to plan activities via your parents or within group messages.
- You should not contact staff on their personal telephone numbers.
- Bullying can happen online too, and it is known as cyber-bullying. If you, or someone you know, has had this happen to them you should tell an adult that you can trust.

- Do not send or forward any indecent image of yourself, someone you know or any other. Even though it may seem like fun at the time this could have future consequences for yourself and cause unhappiness.
- Report any indecent image or video footage to the Internet Watch Foundation - they can have these removed <https://www.iwf.org.uk>

Above everything do not be frightened to tell someone if you are worried or concerned by any online issue or messages.

Remember to use www.kooth.com as a supportive resource – there are people there who can help and advise you.

Have a look at the Think You Know page on the internet for more information about staying safe online: <http://www.thinkuknow.co.uk>

If you are worried or want to raise a concern you can do so to a member of the Club's safeguarding team.

Parent/Carers

The current generation are growing up with the internet as part of their everyday lives. It is a great place for them to learn, have fun and to stay in touch however it is important to make sure that they are safe while they do it.

As access to the internet from various devices increases, it is therefore vital that as parents/ guardians and relevant others we increase our knowledge to combat online threats of harm.

There is information available for you to help keep children, young people or adults at risk safe online: visit <https://www.net-aware.org.uk> for an introduction.

You may also want to have a look at the Child Exploitation and Online Protection Centre's guide to the internet for parents and carers: <https://www.thinkuknow.co.uk>

Most social media platforms have a lower age limit of 13 years of age before a person can interact with them. This is to prevent them from being exposed to potentially inappropriate content. In May 2018 WhatsApp raised the minimum user age to 16 years of age.

A full list of the relevant minimum ages can be found at; <https://www.internetmatters.org/resources/what-age-can-my-child-start-social-networking/>

It is important for you to understand who your child is interacting with online and this includes our staff and volunteers.

It will also be best practice for staff to communicate with your child in a group message setting where all messages remain transparent and accountable. The messages should always be football related and staff should always act professionally. You should provide the Club with consent for such communication and all messages should be visible to you.

There may be occasions where staff are required to contact directly with the 16–18-year-old group. These situations are expected to be in exceptional circumstances and you or a relevant other should always be copied in at the time. Any contact outside of these guidelines will be viewed with suspicion and may be subject to a safeguarding investigation.

The Club are committed to ensuring that we adhere to best practice to reduce the risk of attachment and grooming by those in a position of trust.

First Team Match Day's – missing/lost child or adult at risk

Lost or missing children or adult at risk

The purpose of this procedure is to ensure that children or adults at risk is lost during a fixture are taken to a place of safety, under the supervision of responsible suitably 'vetted' persons who are aware of how to cope with young children or adults at risk.

Peterborough United will provide a manned lost person point throughout the fixture. Peterborough United's lost person point is 'Reception' in the main stand. Reception is staffed during the entire event by receptionists, controlled by CCTV, stewarded at all points.

In order to safeguard the welfare of a lost/found child or adult at risk and to protect members of Peterborough United staff (employees, contractors or agency staff), the following protocol is provided as guidance which should be in place at all events.

Peterborough United will make sure that all members and volunteers know where to take a child or vulnerable adult who have lost their parent / carer or the person looking after them.

The agreed Collection Point will be available during all fixtures (Reception) which does have access to a telephone which in turn can be used to contact Control Room where the safety team have access to the venues PA system.

In the event of the above, the control room must be notified immediately, they will deploy the match day safeguarding officer.

If lost children, parents separated from their children, adults at risk or carers of adults at risk arrive at other points or speak to Peterborough United employee's, Stewarding Staff or volunteers, they should be directed or taken to the Collection Point as appropriate.

Once a child or vulnerable adult has been re-united with their collecting adult the match day safeguarding will notify the control room for all personnel to stand down.

Children or adults at risk found without their parents/ carers;

A child or adult at risk appearing to be lost should be approached and asked if they know where their parents/guardian/carer are.

If a child or adult at risk still appears to be lost, they should be led to the Collection Point and the match day safeguarding officer will be contacted. They will be encouraged to remain at the collection point until they have been re-united with a parent or guardian. The match day safeguarding officer will remain with them.

The child or adult at risk should gently be asked for as much information as possible, including, their name, who they are with, their parents/guardians/carer's/brother etc. names, where they last saw them and a description of them. If the child is brought over by another adult, as much information as possible should be gained from them.

The information will be given by the match day safeguarding officer to the Control Room who might decide an announcement over the PA system.

If the parent/guardian/carer's name is known an announcement will be made via the PA system "This is a public announcement, could (Name of person) please come to the Reception located at the Main Stand".

If the name of the parent /guardian /carer is not known the following announcement will be made via stage PA systems "This is a public announcement, please remember this is a busy event, if you have been separated from a family member, then please go to Reception located in the Main Stand)".

The PA announcement should not mention the name of the lost child or adult at risk

The child or adult at risk should be kept in an area out of public view, where they will await collection.

If a parent/guardian/carer is not located within a set time based on the size of the venue, the adult at risk, or the age of the child, the Safeguarding officer will inform the police.

Depending on where the child or adult at risk came from within the stadium, response teams will be deployed to the stand in question. An initial search will be conducted of the area where the visibility of staff needs to be maximised to promote an opportunity for a parent/guardian to engage with staff.

Parent/ Guardian reporting lost children or Adult at Risk;

Staff should reassure parents/guardians and/or carers who are making a notification of a lost child or adult at risk that a search will be organised by the Safety Team.

Staff encourage the parent to come to the Reception in the Main Stand if not already there, so they can give details to the match day safeguarding officer.

Ask them for the following details of the child or adult at risk – name, age, sex, ethnic origin, hair colour, build, clothing, location last seen and who they were with.

Parents/guardians and/or carers should be encouraged to regularly return to the Reception Desk if they continue to search for the child in case the child is found.

To prevent any communication issues, a telephone number needs to be obtained, this needs to be conducted so both parties can share information if one party finds the child or adult at risk.

All staff at ALL exit points need to be informed of the situation with a description. Any child matching the description must be approached.

A LOCK-DOWN procedure must be considered for part of or all of the stadium after a period of time at the discretion of the safety officer. This will mean that the exits will be closed, preventing the possibility of that lost individual leaving the site.

CCTV will be used, and operators must be proactive.

The 4th official must be notified. Although this isn't a fixture related problem, the 4th official should be informed as they have knowledge that the Safety Team are dealing with an incident of importance and therefore may not have available to them what was discussed during initial briefings.

A photo would be useful from the person who is informing staff of the lost person. That picture should be shared by private message to ALL supervisors.

When the child or adult at risk is found, they will be led to the Reception in Main Stand to be re-united with their parent or carer. The match day safeguarding officer will then notify control if they are already aware.

Re-Uniting parent/guardian with children/ venerable adults;

When an adult arrives to collect the 'lost or missing' child or adult at risk, they should not be able to 'view' the child(ren) or adult at risk held for safety.

They should be required to provide details – name, age, address, who they are in relation to the child or adult at risk (including name), and a description of the child's or adult at risks appearance and clothing. Many adults nowadays will have photos of those involved on mobile phone devices.

Should there be any reservations about releasing the child or adult at risk they should request The Safety Team and or match day safeguarding officer is to contact a Police Officer for assistance.

Every situation is different and although Peterborough United have a contingency plan, everyone has to be open to other situations which may present themselves. Children's ages, background, race, financial background, exposure to harmful substances etc etc.

Everyone has a different background and staff will be open to other considerations in terms of safeguarding. If it doesn't seem right – staff should raise their concerns.

Late collection – Monday to Sunday (Academy)

Rationale

If an authorised person does not collect a child or adult at risk, our aim is to resolve the situation causing as little distress to the child or adult at risk as possible.

Procedures

We keep all the names and telephone numbers of the authorised adults who are authorised to collect the child or adult at risk from any Peterborough United activity.

If we are informed, you are late then two members of Club staff will remain with the child or adult at risk.

If there is a change to the proceedings of the collection of a child or adult at risk, we ask parents / carers to notify us immediately.

What will happen if the Club are unable to contact

If the Club are unable to make contact with an authorised adult to collect the child or adult at risk and they have not been collected with 1 hour of the Peterborough United activity finishing the senior member of staff onsite will contact one of the safeguarding team. The Safeguarding member if it is not already the Head of Club Safeguarding will make contact to notify them for advice and guidance. A member of the safeguarding team if not already on site will attend site and will be instructed to contact social services. Two members of staff will then accompany the child or adult at risk there. Social service will then take over from the Football Club. Under no circumstances will staff go looking for the authorised adult or take the child home. A full report of the incident will be written up and issued Safeguarding Team.

Missing child or adult at risk

At Peterborough United Football Club, we follow the outlined missing person's procedure at any trip/tour, Academy activity or Club travel;

- Ensure the safety and supervision of the rest of the group that are in attendance
- Retake the register
- Inform a member of the Safeguarding Team
- Ensuring the safety of the rest of the group, do a controlled local search
- Remain calm

If after a period of fifteen minutes the child or adult at risk has not been located;

- Contact their parent / guardian if necessary (all staff/ volunteers in charge will hold a contact list for all children or adults at risk in their care)
- Inform the police and handover

Prevent

Peterborough United Football Club recognises and promotes the importance of British values. It is key to build resilience to radicalisation on every level throughout the Football Club allowing every child or adult at risk from diverse and ethnic backgrounds to reach their full potential, to be safe and protected and to stop people being drawn into supporting terrorism. The Football Club also seeks to stop the development of a rigid and narrow ideology that is intolerant of diversity, British values and which, ultimately, leaves them vulnerable to future radicalisation.

PETERBOROUGH UNITED FOOTBALL CLUB

Peterborough United is responsible for the welfare of all children and adults at risk that are involved in any Club activity.

Extremism is defined as vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty and mutual respect, as well as the tolerance of deferent faiths and beliefs.

There is no such thing as a 'typical extremist'. Those who become involved in extremism do so from a wide-ranging mix of backgrounds and experiences. It should be accepted that many who hold extremist views do not go on to become involved in violent extremist activity.

Radicalisation refers to the process by which a person comes to support terrorism and extremist ideology. Radicalisation can take place in several ways, though recent emphasis has been placed on the role of the internet in the process as well as the influence of powerful direct relationships on an individual.

The general risks affecting children or adults at risk may vary from area to area, and according to their age. There is no single way of identifying an individual who is likely to be susceptible to a terrorist ideology and as with managing other safeguarding risks, Club personnel should be alerting to changes in children's, young people and venerable adults' behaviour that could indicate that they may need help or protection. That said there are acknowledged signs that may be of use as an indicator such as underachievement, possession of extremist literature, social exclusion, individual traumatic events, religious conversion or zealotry, intolerance, referencing extremist ideology or views as well as influences, family conflict, confused identity issues or being the victim or witness to race or hate crimes.

Peterborough United Football Club will provide training to its staff and volunteers in recognising, grooming in radicalisation behaviour. Training will be delivered in partnership with key organisations such as the Counter Terrorism Police on an annual basis.

Procedure

If there is any concern that a person is or may be exposed to or at risk in respect of radicalisation, you must refer this to the Head of Club Safeguarding immediately and they will report this to the appropriate authorities.

Transport

As a primary source of transport Peterborough United use Club minibuses for the transport of Players and Staff. These vehicles are serviced regularly through the minibus hire company to ensure that they meet the road safety standards as the safety of our players is of paramount to the Club.

When it is not possible to use Club minibuses or extra room is required cars may be used to transport players, it is preferred that it is a Club company vehicle or Club hire vehicle. In the vent of this happening staff must travel in pairs.

As a last resort where a member of staff needs to transport a player in their own personal car they must have authorisation from their line manager and a full UK driving licence and hold an in date business insurance certificate. You must ensure that on these occasions there will be more than one member of staff present in the vehicle.

Players in the Full Time Training Model (FTTM) in the Youth Development Phase (Under 12 – Under 16) will be met, if required, by the Club minibus at Peterborough Train Station every morning and will be transported to the Training Ground. At the end of the day, the Club minibus will collect the players from the Training Ground and return them to the Train Station. The duty of care for Peterborough United starts and ends at Peterborough Train Station.

Should the Club provided minibus be unavailable, taxis will be organised through a Club preferred company. Whistle Blowing

Under certain circumstances, employees are protected from suffering any detriment or termination of employment if they make disclosures about organisations for whom they work.

Qualifying Disclosure

Certain disclosures are prescribed by law as “qualifying disclosures”. A “qualifying disclosure” means a

disclosure of information that the employee genuinely and reasonably believes is in the public interest and shows that the Company has committed a “relevant failure” by:

- committing a criminal offence;
- failing to comply with a legal obligation;
- a miscarriage of justice;
- endangering the health and safety of an individual;
- environmental damage; or
- concealing any information relating to the above.

These acts can be in the past, present or future, so that, for example, a disclosure qualifies if it relates to environmental damage that has happened, is happening, or is likely to happen. The Club will take any concerns that you may raise relating to the above matters very seriously.

The Employment Rights Act 1996 provides protection for workers who ‘blow the whistle’ where they reasonably believe that some form of illegality, injustice or breach of health and safety has occurred or is likely to occur. The disclosure has to be “in the public interest”. We encourage you to use the procedure to raise any such concerns.

Procedure

In the first instance you should report any concerns you may have to the Head of Club Safeguarding or member of the safeguarding team who will then inform the Head of Club Safeguarding. Your concern will treat the matter with complete confidence.

Relevant Club Safeguarding policies dependant on the nature of the whistle blowing concern will then come into effect.

Treatment by Other

Bullying, harassment or any other detrimental treatment afforded to a colleague who has made a qualifying disclosure is unacceptable. Anyone found to have acted in such a manner will be subject to disciplinary action.
